PROFESSIONAL SUMMARY

Full-stack Software Engineer with 4+ years of experience building enterprise web applications with Angular, TypeScript and Node.js (NestJS, Fastify) for international clients. Architected customer-portal frontends serving 50+ customers and led AI-assisted framework and backend migrations. MSc in Information Technology (Enterprise Application Development), SLIIT, with research in AI-assisted code documentation.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, Java, SQL

Frontend: Angular (v12-v21), RxJS, Signals, React, Next.js, Tailwind CSS, Bootstrap, SCSS, HTML5, CSS3

Backend: Node.js, NestJS, Fastify, Express, REST APIs, Microservices

Databases: MongoDB, Firebase Firestore, SQL Server, MySQL

Cloud & DevOps: AWS (Lambda, API Gateway, CloudWatch), Google Cloud Functions, Firebase, Docker, CI/CD

Tools & Practices: Git, Jira, Postman, Jest (unit testing), Agile/Scrum, Code Reviews, Cursor, Claude Code

WORK EXPERIENCE

Random Software Ltd., Sri Lanka Nov 2022 - Present

Software Engineer Dec 2024 - Present

Bodyshop Suite - Customer Portal | Angular 21, TypeScript, RxJS, Bootstrap, SCSS

- Architected the Customer Portal frontend from the ground up in **Angular 21** (Signals, reusable components, pipes), serving **50+ customers**.
- Built reusable UI modules and integrated REST APIs across customer and admin portals, cutting feature delivery time by 20%.
- Implemented **RxJS** state management and **responsive UI design** (Bootstrap, SCSS) across customer and admin portals.
- Conducted peer code reviews and contributed to solution design with international stakeholders.

VSMP - Vehicle Sale Management System | Angular 20, Fastify, TypeScript, Cursor, Claude Code

- Built the Customer Portal UI architecture from scratch and delivered features across customer and admin portals.
- Led frontend modernization and an AI-assisted (**Cursor**) migration of Angular and backend services, including Hapi.js to **Fastify**, improving API response time by 20-40%.
- Researched AI-driven development workflows to improve team productivity; owned technical decisions and solution design.

Marketplace Apps Platform | Angular 17, TypeScript, AWS Lambda, API Gateway, CloudWatch

- Designed a modular marketplace architecture for mini-apps and built full-stack features with Angular and serverless **AWS Lambda** functions exposed through **API Gateway**, with logging and monitoring in **CloudWatch**.
- Developed Third-party Integration, To-Do and VIN Decoder apps; researched Google Reviews integration.

Associate Software Engineer & Intern Nov 2022 - Nov 2024

Quick Quote | Angular 16, NestJS, Tailwind CSS

- Contributed from inception to delivery: built full-stack features with Angular and **NestJS** and responsive UIs with **Tailwind CSS**.
- Took part in requirements analysis, solution design and architecture decisions.

Intern Software Engineer, Q2 Soft Feb 2022 - Aug 2022

- Built RESTful APIs in .NET Core and implemented data binding in AngularJS frontends.
- Optimized SQL stored procedures to speed up reporting by 50%.
- Fixed sprint and client-reported bugs in a Scrum team; presented new features to stakeholders.

EDUCATION

MSc in Information Technology (Enterprise Application Development) Jun 2024 - Jun 2026

Sri Lanka Institute of Information Technology (SLIIT)

- Research: enterprise-aware code documentation generation using transformer models (CodeT5, LoRA) and semantic retrieval (Sentence-BERT, FAISS) to improve the developer onboarding experience.

BSc in Information Technology (Specialized in Software Engineering) Jan 2020 - Dec 2023

Sri Lanka Institute of Information Technology (SLIIT) | Final CGPA: 3.59 | Dean's List (three semesters)

ACHIEVEMENTS

- **Runner-Up**, International ICT Innovative Services Awards (InnoServe 2023), Taipei, Taiwan
- **Merit Award**, National Best Quality Software Awards (NBQSA) 2023
- **Winner**, All Island Case Study Competition (CEO 2.0) 2023

SELECTED PROJECT

- **Bright Minds** - assistive technology system supporting inclusion for children with Down syndrome (Python, Machine Learning, React Native, Flask, MongoDB).
